

# How to Download a Video

1. Find a video that you want to use from YouTube or other video source.

2. Go to <http://keepvid.com> once you have found a video that you want to use.
3. Enter in the URL for your video and click Download.

4. A "Download Links" window will appear. For use with the USG Podcaster Server, download the video as an MP4 file. Download other formats as needed.

5. Click on the Save button and save the file to your computer.
